MEDICAL CLEARANCE PROTOCOL FLOW

Screening for Covid 19 virus, try not to eat or drink for about an hour before the test. If you have eaten, please inform the Test Center staff about it.

Before entering the testing center, have identification documents with you to verify your identity.

At the center, the staff will register with the medical system, then you will be asked to go to the point where the medical staff will take a swab from your nose or mouth.

The test results are forwarded to the team's leaders who will be informed about the necessity to perform retests.

We will repeat the test every 48 hours at the test center or in your hotels, for the sake of your safety and the safety of other participants in the event.

Remember your health is important to us.
